

# Community Prep School--Performance Targets

Performance targets provide short term structure for every student's academic progress to help them stay on track toward earning a diploma. Targets and time frames are set cooperatively between advisors and students. When targets are completed within the established time frame, advisors and students create a new set of targets and move forward. When students do not reach their targets within the established time frame, advisors put a plan in place for students to reach their targets and move forward. The plan can include requiring after school "Focus" time for students to catch up with their targets.

<b>Self Assessment: Check the statement that best describes your trajectory toward graduation.</b>	I am moving in the right direction	I am moving in the wrong direction	Advocate/Advisor Comments:
--	------------------------------------	------------------------------------	----------------------------

What realistic changes can you commit to moving forward?

What can we do to best help you meet your targets?

Student	Advisor	Start Date	End Date
---------	---------	------------	----------

COURSE or AREA	TARGET	COMPLETE (YES or NO)

<b>RESULTS</b>	All targets complete. Establish a new set of targets.	Most targets complete. Write the plan for finishing targets here.	Few or no targets complete. Focus time or alternative. Write the plan here.
