Remembering 41....

George H. W. Bush

6/12/1924 - 11/30/2018

George H. W. Bush devoted his life to his family and to his country. He enlisted in the Naval Reserve and flew combat missions in World War II while still a teenager. After enjoying success in business, and raising his family, he entered political life, serving as Congressman, Vice President and finally President of the United States.

His administration saw the passage of the Americans with Disabilities Act, renewal of the Voting Rights Act, and successful American military actions in Kuwait and Panama. Over the course of his career, he involved himself in many of the most contentious political debates of the age, but through it all he retained the personal goodwill of political allies and adversaries alike.
